

PRODUCT CHANGE NOTICE

Document ref:	PCN160126A v1.0
Issued:	26 Jan 16
Authorised:	NPC

Product affected

GTXO-93

Description

Due to the impending discontinuation of supply of the existing IC used in the above products, a new IC will be introduced into production during Q1 2016, necessitating a slight change in package.

Transition

The new IC provides the equivalent electrical performance and characteristics, so transition should be seamless. The new package is pad-compatible with the old one. Supply of oscillators using the new IC will commence in the coming months, as stocks of the original ICs are depleted. Golledge part numbers will not be changing. No customer action is required.

If you require samples for approval or have any queries, please contact your Account Manager or sales@golledge.com
